St. Oswald's CE Primary School

Learning for all, caring for each other, preparing for the future.

Year 1 Learning Grid 1 W.C. 30th March 2020

Reading	Writing	Maths	Phonics/Spellings
Listen to a story from Tim Peake in space! www.storytimefromspace.com/library/ www.storylineonline.net/ www.teachyourmonstertoread.com/ (requires you to register but on a computer it is free) https://www.booktrust.org.uk/books-and-reading/have-some-fun/storybooks-and-games/ (you can read stories online on here or listen to stories being read) **Activity:** From a story you have read, try create a new front cover and write the blurb for it.	We began writing a non-chronological report about jellyfish. Research an under the sea creature. Find out about its habitat, diet, appearance and any fun facts. Write your own non-chronological report all about it. **Top tips:** Use third person (they), present tense (are, have), full stops, capital letters Try include a "Did you know" question but don't forget the question mark. Could you include some interesting adjectives to describe what it looks like?	This week, I would like to refresh your knowledge of weight and Mass. 1. There are 5 different areas for this week. Lesson 1- introduce weight and mass, Lesson 2- measure mass, Lesson 3- compare mass, Lesson 4- introduce capacity and volume Lesson 5- measure capacity. 2. There are videos for each lesson which are accessible on a computer/tablet or mobile device: https://whiterosemaths.com/homelearning/year-1/ 3. Then there is an activity to complete (you do not need to print this out) for each activity. Answer sheets are also available. **Other activities:** Count in 2's, 5's and 10's.	Try spelling words that contain the long vowel sound /ā/: a-e, ai, ay. snake train pray hate safe tray pain play **Activity: Rainbow words** First, write your spelling words in pencil. Trace over the word 5 times using a different colour crayon each time. www.phonicsplay.co.uk log in: march20 password: home
Science	**Topic**	**Art**	**P.E.**
We have been learning all about habitats. We recently started learning about microhabitats. If possible, go on a bug hunt in your garden! What can you find? Maybe you could make a bug hotel. If not, how about design a bug hotel?	We have been learning all about the 7 continents and 5 oceans. Can you create your own song about these? Or how about a model with labels? The choice is yours!	As we have been learning about habitats and different living things, if possible have a look for what plants are in your garden. Or you can read a favourite story and look for what plants you can spot. Using techniques we've learnt, sketch the plants you can see. Try then adding colour.	Join Joe Wicks at 9am every morning for a workout via youtube. Alternatively, try out a gonoodle (www.gonoodle.com) (free but requires you to sign in) or just dance (youtube)

Don't forget to tweet us and show us all your wonderful learning @stoswaldsyork
