

Home learning is hard but the children did us proud!

They watched videos made by teachers every day covering key skills for phonics, maths and writing. There were also lots of ideas for exploring other areas of learning in the home, a daily bedtime story and collective worship.

We loved seeing their photos and videos on Evidence Me, as well as seeing their faces on two weekly Zooms. Bug Club helped us to keep reading online

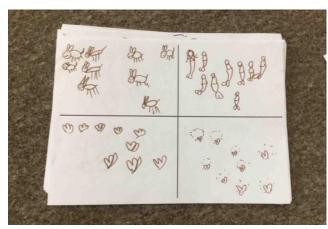

Maths- Number

We practised counting in lots of different ways, using things we could find in our houses. We are learning to recognise the shapes of numbers on dice and in our play.

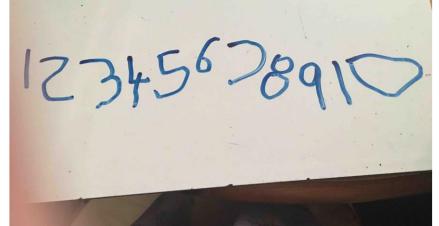

Maths - Number

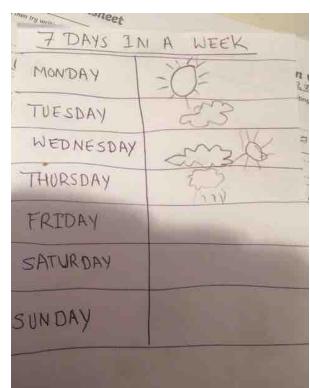

We are learning lots of different ways to represent numbers, sometimes using things we find in the house

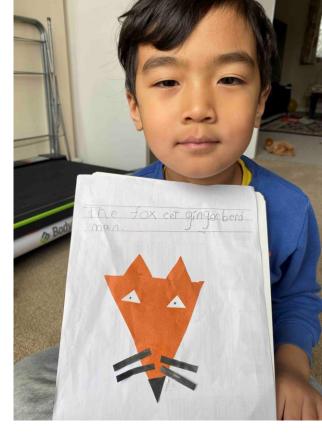

Maths – Shape, Space and Measure We are exploring shapes and their properties, learning to use a clock to talk about time and to say the days of the week.

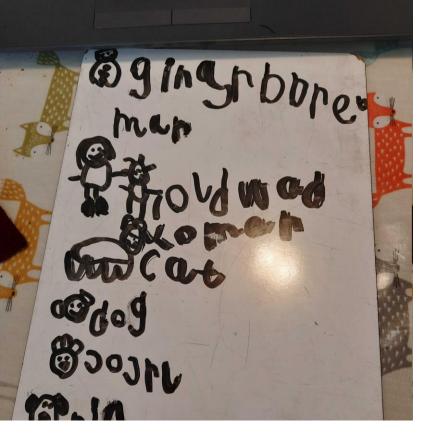

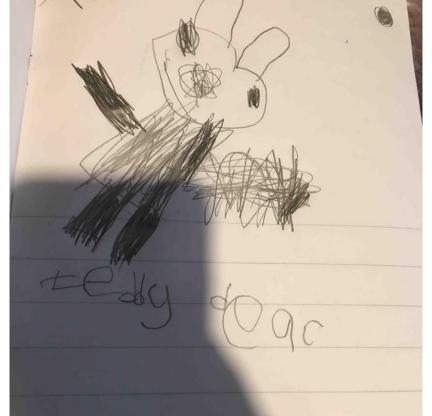

Talk For Writing

We explored our writing and storytelling by exploring The Three Little Pigs and The Gingerbread Man stories.

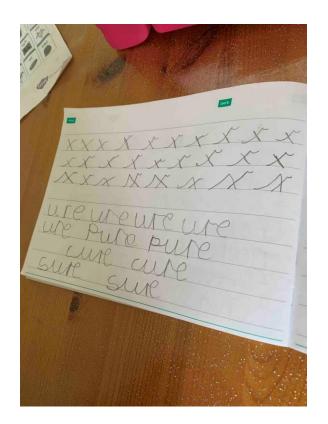

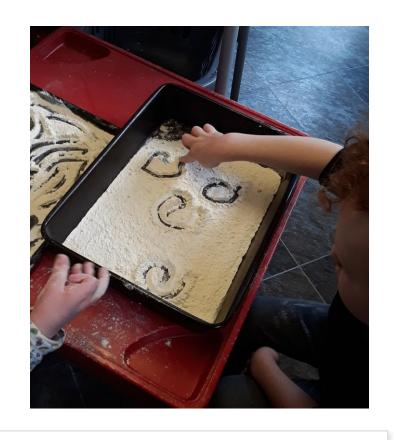

Writing

We practised writing for lots of different purposes – about stories, to send cards to friends and families and to label our pictures.

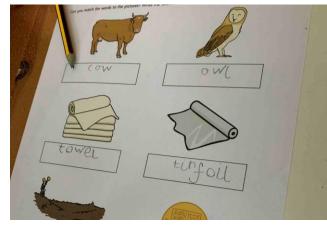

Handwriting

We used pencils in our handwriting books and lots of other ways to learn our letter formation

Phonics

We practised phonics every day, learning to read and write new digraphs. We also thought of lots of fun ways to practice reading and writing our key words.

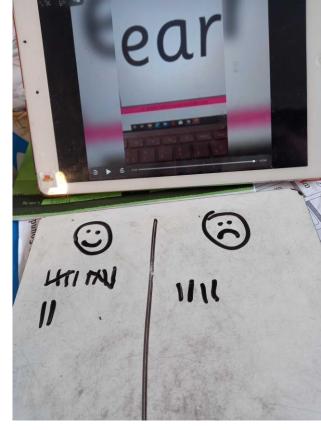

More Phonics

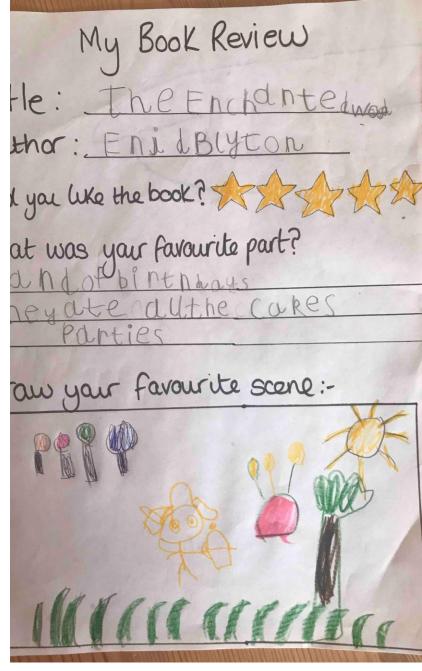

We used computers and tablets as well as our whiteboards and other resources to practice our phonics skills at home.

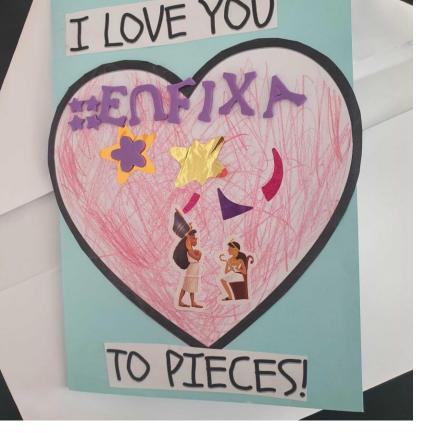

Reading

We listened to bedtime stories from Reception staff every day. We celebrated world book day by talking about the books we love and playing games together. We used Bug Club online to practice our reading.

Chinese New Year, Pancake day and Valentines day

We learned about these special days and found ways to celebrate them

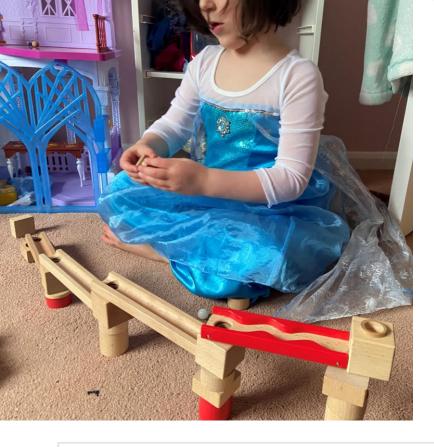

Expressive Arts and Design

• We explored lots of different media and techniques.

Understanding the World

• We did experiments to help us explore and talk about our world

Physical Development

We kept fit in lots of different ways and thought of activities to do on our daily walks

We didn't forget to have fun – especially when it snowed!
