

Y1/2

The Secret Garden

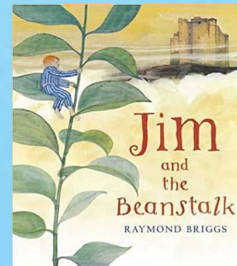

Come and see our
wonderful learning
during summer
term.

Summer 2

English

We then read the story Jim and The Beanstalk. A Beanstalk appeared in our school car park. We wrote a newspaper report about this.

Worksheet 17 March 2020
Write about the story of the beanstalk.

You will need:

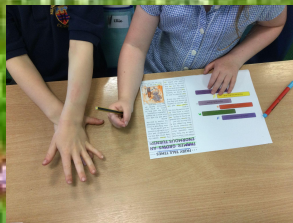

-
-
-

How to:

1. _____
2. _____
3. _____

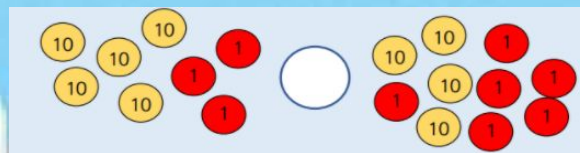

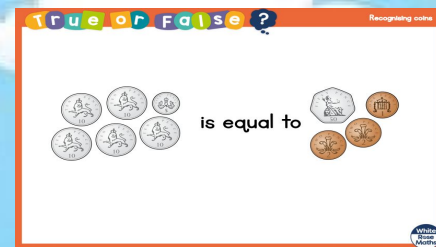

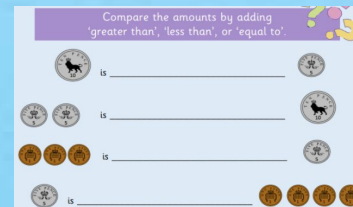

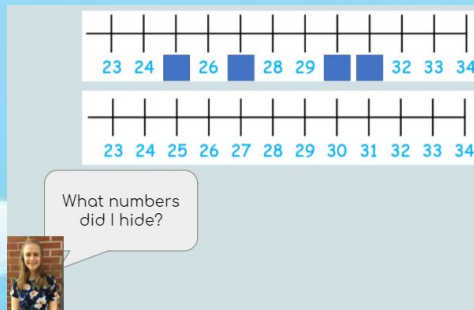

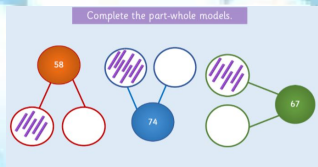

In English, we wrote our own instructions based on planting our own seeds in science.

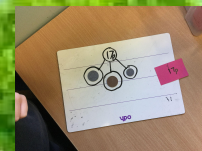

Y1 Maths

In Y1 maths, we have been learning to partition, compare and order numbers.

We have also been learning about money.

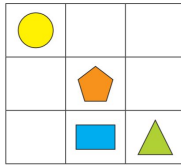

Y2 Maths

We learnt about position and direction. We used the key words: forwards, backward, clockwise and anticlockwise to direct our partners.

Draw shapes in the grid to match the sentences.

There is a pentagon in the middle.
There is a star to the right of the circle.
There is a smiley face to the left of the rectangle.
There is a heart above the triangle.
There is a square below the circle.

In Y2 maths, we also learnt about capacity and volume. We had such a great time estimating and measuring.

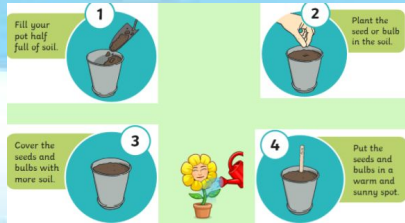

Finally, we learnt about weight and mass. We weighed objects in the classroom and recorded the weight..

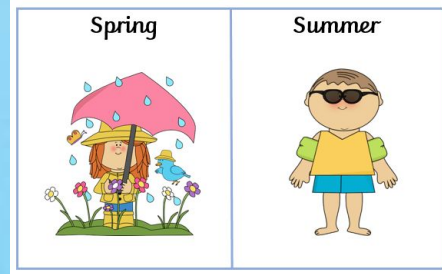

Science

We also continued our work from autumn term when we learnt about the seasons. We compared spring and summer.

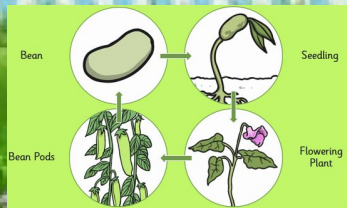

I can record and compare the growth of seeds and bulbs.

	Sunflower	Sunflower	Sunflower	Sunflower	Bulb	Bulb	Bulb	Bulb
Week 1								
Week 2								
Week 3								
Week 4								

- Buds on plants appear.
- Temperature is even warmer.
- 12 hours of daylight.
- Waterproof coat + wellies.
- Plants flower.
- Temperature gets even warmer.
- Thunderstorms.
- 16 hours of daylight.
- Shorts, sandals + shirt.

We conducted an investigation whereby we planted seeds and bulbs in different conditions. We made predictions and recorded our observations.

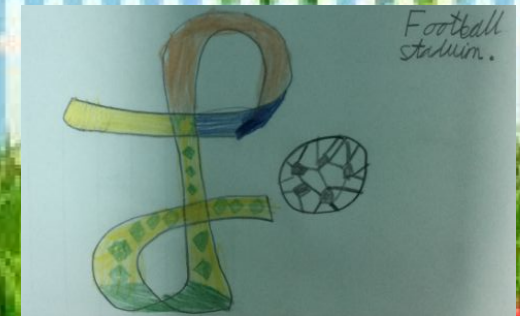

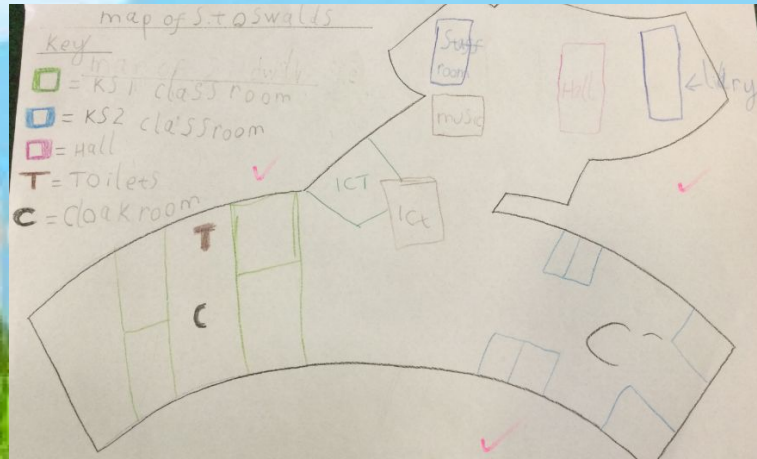

We also planted cress to observe whether it grew better in warm or cold conditions. We found it grew better in warm conditions.

Geography

In geography, we have been exploring maps. We have designed our own map symbol and we created a sketch map of the school.

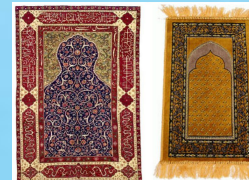

Religious Education

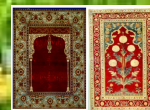

In RE we have been looking at 'Who is a Muslim and what do they believe?'

Muslims have 99 names for God. The names are found in the Qur'an and are often called the 99 Beautiful Names of Allah. Each name tells Muslims something about God.

It is important to remember that Muslims do not draw Allah - they use words to describe him. **Not pictures.**

We designed our own prayer mats. We had to remember Muslims do NOT draw pictures/images of Allah, Muhammad, other prophets, or angels and so out of respect to Muslims we cannot draw them either.

1.2 Who is a Muslim and what do they believe?

Summer Term
2020-2021

The 5 pillars are:

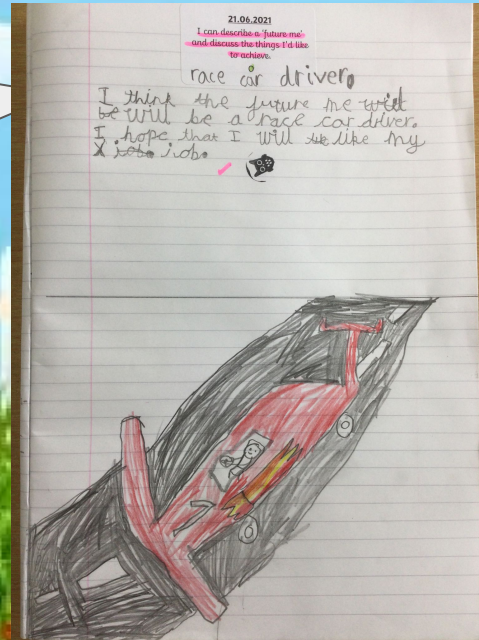

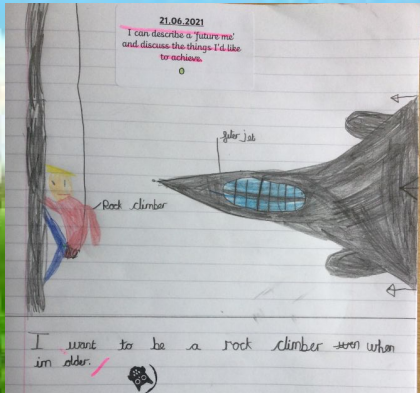

1. Shahadah = belief
2. Salah = prayer
3. Zakah = charity
4. Sawn = fasting
5. Hajj = pilgrimage

We are just going to be focussing on Shahadah and Salah.

Relationships Health Education

In RHE, we have been exploring coping with change. We have looked at how we will grow and how we will change.

We learnt all about the 'future me' and we discussed what we would like to be when we grew up.

Hello, future me!
What would you say to a future you?

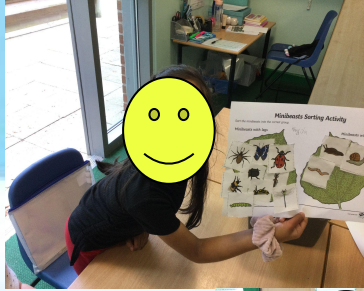

Roll the dice

1. Say one way you have changed that makes you feel proud of yourself.
2. Name a change you are looking forward to when you move up.
3. Share a change that you would like to make in the future.
4. Is there anything that worries you about moving up?
5. Name a new thing that you would like to try.
6. Who can you speak to if you are worried or need help in school?

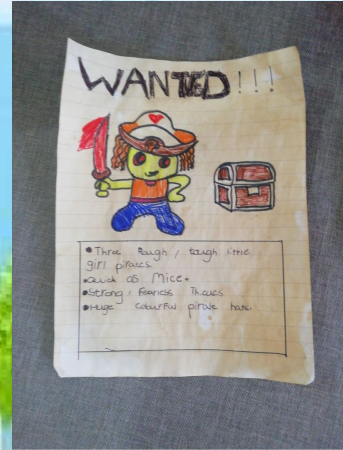

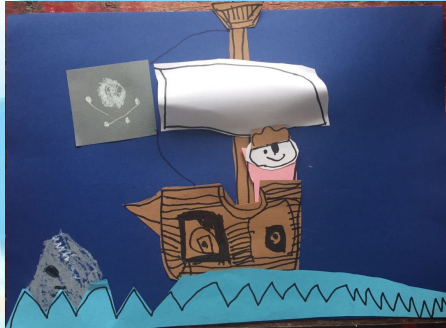

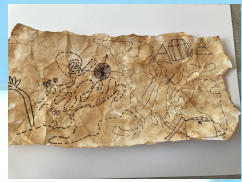

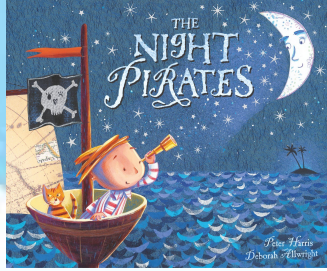

It's a Bug's Life

We had an amazing Fabulous Finish for our topic. We had a surprise visitor from bugs n stuff who brought in lots of minibeasts and creatures for us to explore.

Pirate Week

We ended the year with a wonderful pirate-themed week. Take a look at all the fun we had!

**Thank you for looking at
all our wonderful
learning in Summer 2.**
