

Look at What  
We Have  
Been Learning!  
– Spring 2 in  
Reception

# Communication and language

Learning to listen, understand, chat and ask questions are all really important. Here are some of the things that have got us chatting this half term!

We had a visit from the fire service. We listened carefully while they told us about their jobs and we asked them questions. We even had a go in the cab of the fire engine!

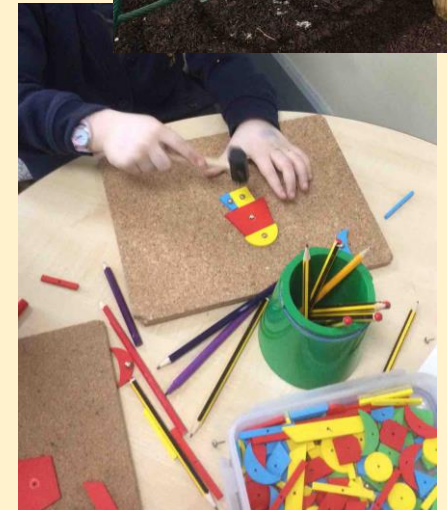

Problem-solving with the coding caterpillar

Hunting for mini beasts in our wild area

# Physical Development – fine and gross motor skills

These are just some of the ways we are developing our fine and gross motor skills every day while we play.....

# Literacy

## Celebrating Word Book Day

We built  
bridges for the  
Billy Goats  
Gruff

We planted a  
bean like  
Jack's  
beanstalk

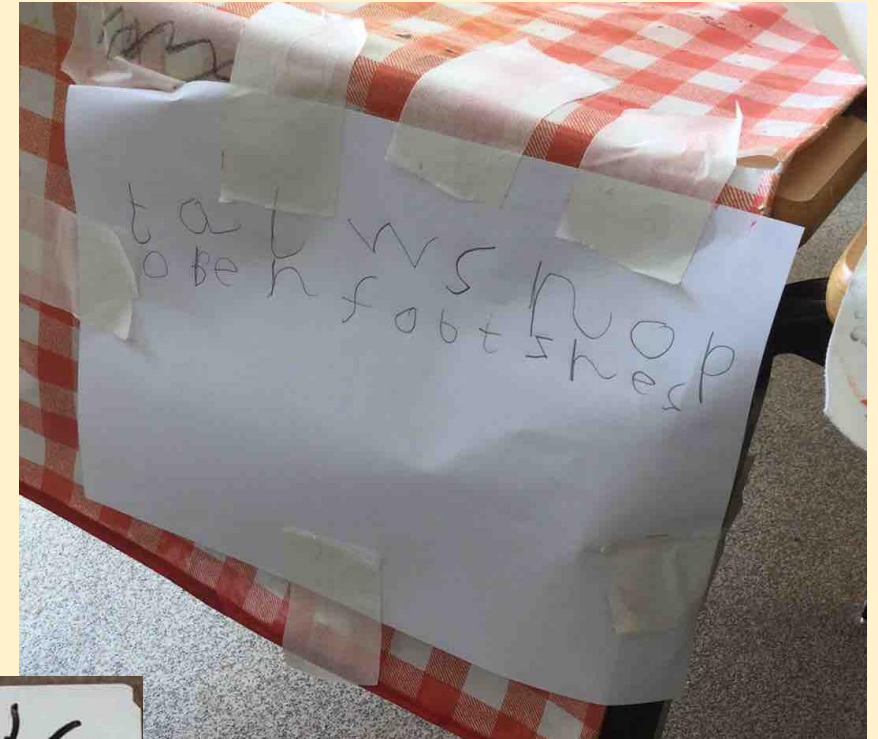

We made paper  
bag puppets

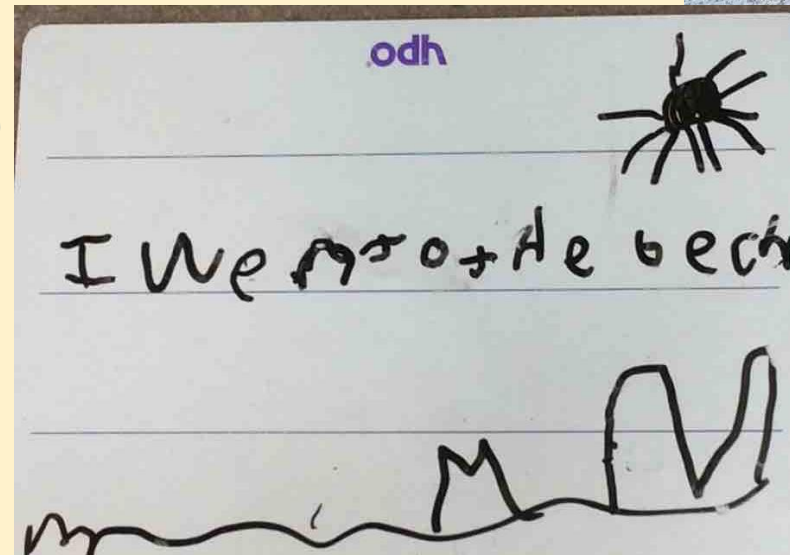

We told the  
story of the  
Enormous Turnip  
with dance

# Literacy

We love to read -  
in our reading  
area, in our  
classroom,  
outside! We read  
with adults, with  
our friends and  
by ourselves.

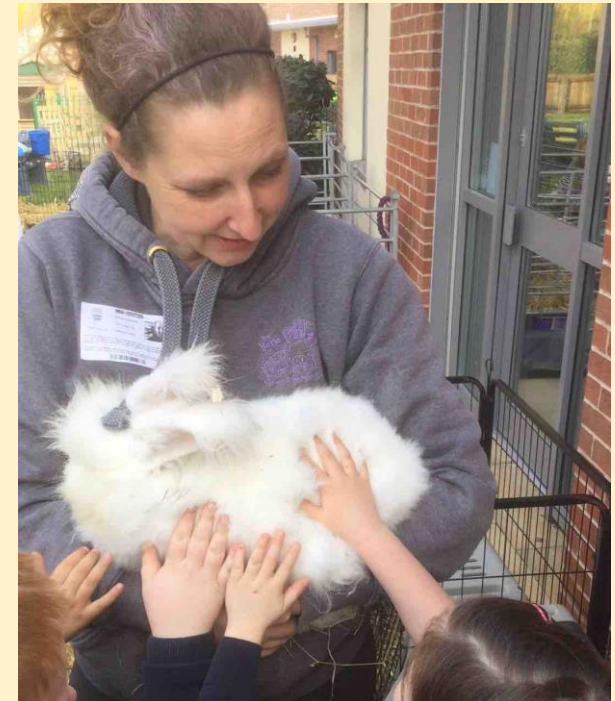

We write about the stories we have  
read and the things we have  
learned. We also love to use our  
writing in our play. We are starting  
to write sentences by ourselves!

# Purple Pig

We had a visit from Purple Pig farm. We learned about different farm animals and we touched and talked about them all. We painted pictures of the animals and wrote about our favourite animals.

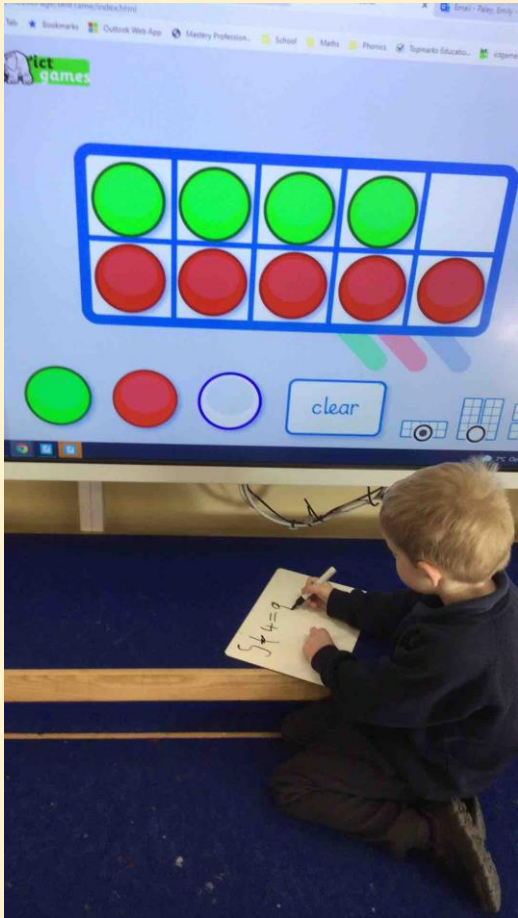

# Mathematics

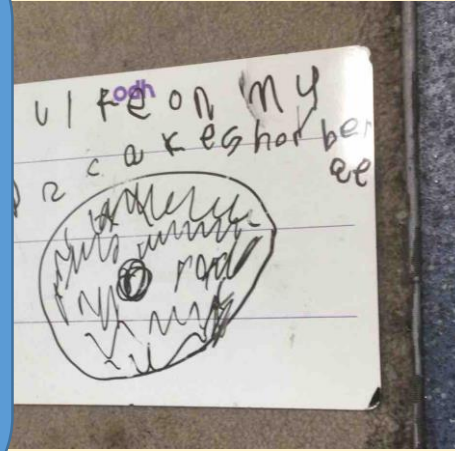

We have explored in detail how numbers are composed and found different ways to show them. We've focussed on number 5-10 this term.

We learn maths every day and we use our mathematical knowledge and ideas in our play

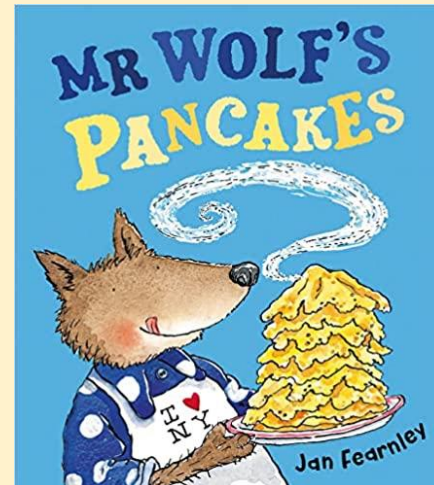

# Understanding the world – Pancake Day!

We learned all about Pancake Day! We learned how to make pancakes, we tasted pancakes and we thought about what we like on our pancakes! We played at tossing pancakes in our home corner and we drew and wrote about pancakes.

We loved the story of Mr Wolf's Pancakes!

# Understanding the World – science week

We had some very  
interesting  
visitors!

We tried out  
vision-altering  
goggles!

We explored  
dinosaurs and  
fossils

# Understanding the World – Easter

We read the story of Easter and learned about Easter customs. We made Easter nests, Easter cards and we did an Easter egg number hunt in the Wild Area.

We learned songs and poems for our Easter show

# Expressive Arts and Design

We observed  
and drew  
daffodils in  
the Wild Area  
and in the  
classroom

We love  
exploring lots  
of materials  
and processes  
in our creative  
area

We loved  
our Drumba  
workshop!
