

Look at what we've
been learning
Autumn 2

Communication and language

We have been learning lots of new vocabulary linked to the celebrations we have been learning about.

Our Nativity performance gave us chance to use our voice to retell the story and sing songs to others.

We have been focusing on engaging with story times and building our familiarity with a few stories linked to our topic so we can retell to our friends.

Physical Development

We have lots of areas to develop our fine motor and gross motor control across the classroom and outside.

Fine motor skills has been one of our main focuses this term. We have been practising our cutting skills and developing with the dough in dough disco.

Personal, Social and Emotional Development

We have been working on our independence this term, doing things for others, what it means to be kind and working together.

Literacy

Our phonics have really taken off this term and we have lots of readers and writers in Reception now! We have been practising this at every opportunity. We have also been making cards and invitations to reflect our Celebrations topic.

Maths

We have been continuing with our learning about number, using shape and pattern and counting how many.

Understanding the World

In our Celebrations topic we have been learning about Autumn festivals, Bonfire Night, Remembrance Day, birthdays, Diwali and Christmas.

In the Wild Area we have been looking at the changing seasons.

Expressive Arts and Design

We have been finding out about pulse and beats in music.

We have been using shape and pattern in our creations this term.

A lot of our creations have reflected the celebrations we have been learning about.

Our Wriggly Christmas Nativity!
